

# CompSust-2016

Computational Sustainability  
Computational Methods for  
Sustainable Development

## Organizing Chairs:

Tom Dietterich, Bistra Dilkina, Angela Fuller, Carla Gomes, Zico Kolter, and Milind Tambe

## Doctoral Consortium and Junior Researcher Program Chairs:

Daniel Sheldon and Nicole Sintov

**Program:** The conference focuses on computational methods for balancing environmental, economic, and societal needs for a sustainable future. The program includes talks, discussions, and poster sessions. Participants include representatives from national and international research institutions and government agencies and NGOs.

4<sup>th</sup> Intl. Conference on Computational Sustainability

July 6-8, 2016

Cornell University, Ithaca NY
